#### **Nut allergies**

Our buttermilk and Ginger cake recipes contain no nuts, whereas our rich fruit cake contains nuts.

We are a nut aware business but cannot guarantee nut free as we store and use nuts on the premises

Prices and portions are the same as for standard cakes.

### **Portion guide**

These portions are approximate and may vary according to what you constitute as a slice and how you slice your cake!

The suggested way to slice a round cake is to imagine it is square and cut straight across in slices, laying each slice down flat one at a time and cutting at right angles into rectangular slices.

The fruit cake is worked out as a portion being a finger 1"x 1" by the depth of the cake

The sponge cakes are worked out as a portion being a finger 2"x 1" by the depth of the cake

The deeper style cakes will give more portions. You may decide to cut each larger slice in half, there will be 3 layers of cake and 2 layers of buttercream in each slice

Standard depth 3"

8" fruit cake – 45 portions

6" fruit cake – 25 portions

4" fruit cake – 10 portions

Deeper style approx. 6"

8" fruit cake – 65 portions

6" fruit cake – 35 portions

4" fruit cake – 15 portions

Standard depth 3"

8" sponge – 25 portions

6" sponge – 15 portions

4" sponge – 8 portions

Deeper style approx. 6"

8" sponge – 35 portions

6" sponge – 22 portions

4" sponge – 12 portions
